

MAXIMIZE YOUR 3PL OPERATIONS WITH LOGIMAX

EMPOWERING 3PL PROVIDERS THROUGH ADVANCED WMS SOLUTIONS

At Logimax, we understand the challenges faced by third-party logistics (3PL) providers. Our cloud-based Warehouse Management Software is engineered to enhance operational efficiency, streamline inventory control, and elevate customer satisfaction.

WHY CHOOSE LOGIMAX FOR YOUR 3PL NEEDS?

SEAMLESS INTEGRATION, UNMATCHED SUPPORT

Logimax seamlessly integrates with existing ERP systems and ecommerce shopping carts and offers a range of customizable features designed to meet the unique requirements of 3PL operations. Backed by dedicated support from industry experts, you're never alone in your journey to operational excellence.

Integrated Billing Solutions: Automate and customize billing processes to ensure accuracy and efficiency. Our system supports complex billing needs specific to 3PL operations, ensuring you can focus more on service delivery and less on backend calculations.

Real-Time Inventory Management: Gain visibility into every aspect of your inventory with real-time tracking and reporting. This feature reduces errors, lowers inventory costs, and improves order fulfillment rates, making sure that your resources are utilized effectively.

Scalable Technology: **Whether** you're expanding in size or scope, Logimax grows with you. Our solution adapts to your changing needs, ensuring that your technological capabilities always match your business ambitions.

TRANSFORM YOUR 3PL SERVICES WITH KEY FEATURES

ADVANCED FEATURES DESIGNED FOR 3PL SUCCESS

Tailored Order Management: Streamline your order processing with tools that enhance accuracy and speed, from entry through fulfillment. Our user-friendly interface ensures that you can quickly adapt to customer demands and market changes.

Effortless Customer Onboarding: Simplify the addition of new customers to your system with Logimax's streamlined onboarding tools. Our software allows you to quickly set up new client profiles, integrate their unique requirements, and get them operational with minimal downtime. This feature ensures that scaling your client base is not only possible but also painless and efficient.

Comprehensive Reporting: Make informed decisions with advanced reporting tools that provide insights into inventory levels, order status, and customer accounts. Our reports are designed to help you anticipate future needs and adjust your strategies accordingly.

Enhanced Shipping Coordination: Optimize your shipping processes with our integrated shipping solutions. Logimax helps you manage rates, carriers, and schedules, reducing delays and improving service reliability.

A PARTNER IN YOUR GROWTH

Logimax isn't just a provider; we are your partner in operational excellence. Our solutions are developed with the unique challenges of 3PL providers in mind, offering the tools you need to succeed in a competitive landscape.
