

UNLOCK EFFICIENCY IN YOUR WAREHOUSE OPERATIONS WITH LOGIMAX'S YARD MANAGEMENT

STREAMLINE YOUR YARD OPERATIONS

Logimax Yard Management solutions provide an essential tool for businesses aiming to enhance the efficiency and transparency of their yard operations. Our system is designed to simplify the complex logistics of yard management, ensuring that every vehicle and cargo is tracked from gate-in to gate-out.

KEY FEATURES

Gate Management: Automate the entry and exit process, reducing wait times and increasing throughput. Our system ensures a swift and secure check-in and check-out process for all vehicles entering or leaving the yard.

Dock Scheduling: Optimize your dock usage with real-time scheduling capabilities. This feature helps prevent bottlenecks and maximizes the utilization of available docks, making sure that loading and unloading are as efficient as possible.

Yard Task Management: Assign and track tasks efficiently among yard staff. With our robust task management tools, supervisors can allocate resources effectively, ensuring that no time is lost and every task is prioritized correctly.

Yard Equipment Management: Maintain optimal performance and extend the lifespan of your yard assets with our comprehensive equipment management feature. Track the status, condition, and utilization of all yard equipment, significantly reducing downtime and supporting a more productive and reliable operation.

ENHANCE VISIBILITY AND COORDINATION

Our Yard Management module integrates seamlessly with the Logimax Warehouse Management System (WMS), providing unparalleled visibility into every aspect of your yard operations. This integration allows for a cohesive view of inventory, both in the warehouse and the yard, ensuring that all parts of your logistics chain are aligned.

WHY CHOOSE LOGIMAX YARD MANAGEMENT?

Reduced Yard Congestion: Manage traffic in your yard effectively, minimizing delays and improving overall flow.

Increased Operational Efficiency: Enhance the productivity of your yard operations with streamlined processes and real-time data.

Improved Service Levels: Deliver superior service to your clients with faster, more accurate loading and unloading times.

Cost Savings: Reduce operational costs through better yard space utilization and decreased idle times for trucks and cargo.
